Summary

IT graduate from JNTU-GV working as a Project Engineer at C-DAC, with hands-on experience spanning both **full-stack development** (Java, Spring Boot, Angular, ReactJS, MySQL) and **infrastructure operations** (Linux servers, Docker, Redis, Apache Kafka, Nginx, Keycloak, monitoring with Prometheus/Grafana), with growing hands-on exposure to Kubernetes. Comfortable working across development and infrastructure teams, building reliable microservice applications and supporting the systems they run on. Adapts quickly, learns continuously, and is eager to grow further into DevOps and infrastructure-focused engineering.

Skills

- **Frontend:** Angular, ReactJS, HTML5, CSS3, JavaScript, TypeScript, Material-UI
- **Backend & Database:** Java (Core, OOPs, Exception Handling), Spring Boot (MVC, Spring Cloud, Security, Microservices, REST API), JDBC, JPA, Hibernate, MySQL, MongoDB, Git/GitHub, Postman, STS
- **Infrastructure & DevOps:** Linux Server Administration, Docker, Kubernetes (Minikube), Redis, Apache Kafka, Nginx, Keycloak, Prometheus, Grafana, Application Logging
- **Soft Skills:** Problem Solving & Debugging, Communication & Collaboration, Agile/Scrum Methodologies, Technical Troubleshooting, Continuous Learning

Experience

Project Engineer **Jun 2026 – Present**
C-DAC (Centre for Development of Advanced Computing) *Bengaluru, India*

- Developing and maintaining **RESTful APIs** and backend services using **Java, Spring Boot, and Microservices**.
- Working across **both application development and infrastructure operations**: managing **Linux servers, MySQL, and Docker-based deployments** of **Redis, Apache Kafka, Nginx, and Keycloak**, with monitoring via **Prometheus/Grafana** and hands-on exposure to **Kubernetes**.
- Contributing to **full-stack application development**, troubleshooting, monitoring, and performance optimization.

Programmer Analyst Trainee **Jan 2026 – May 2026**
Cognizant Technology Solutions *Chennai, India*

- Developed full-stack applications using **Java, Spring Boot, and Angular**, adhering to enterprise-level coding standards.
- Engineered **RESTful Microservices** and integrated them with frontend components to create seamless user experiences.
- Applied **Agile methodologies** and DevOps principles (Docker/Maven) within real-world project simulations.
- Successfully transitioned from corporate training to a full-time project-ready role based on high performance in technical assessments.

Full Stack Java Trainee **Aug 2025 – Dec 2025**
Revature *Remote*

- Completed an intensive 4-month full-stack development program focusing on **Core Java, JPA, Springboot, and SQL**.
- Executed daily hands-on coding labs and test-driven development challenges to implement robust backend logic and complex algorithms.
- Successfully cleared weekly milestone assignments and rigorous monthly technical evaluations to demonstrate high competency in software engineering fundamentals.

Front End Developer Intern **Apr 2024 – May 2025**
Digital Monitoring Cell, JNTUGV *Vizianagaram*

- Developed responsive UIs using **ReactJS and Material-UI** for the official university website and academic portals.
- Managed web platforms for **30+ affiliated colleges**, ensuring high availability and consistent UI/UX updates.
- Collaborated with backend teams to integrate complex APIs, improving platform usability for thousands of students.

Projects

EduTrack - eLearning Microservices Marketplace **Jan 2026 – Apr 2026**
Java, Spring Boot, Spring Cloud, Angular 21, TiDB (MySQL), Docker

- Developed a **Microservices Architecture** with **Spring Cloud Gateway** and **Eureka** for scalable, centralized service routing and discovery.
- Secured API endpoints using **Spring Security and JWT**, implementing **RBAC (Role-Based Access Control)** for Admin, Instructor, and Student modules.
- Built an automated **Student Progress & Attendance Tracker** that triggers certificate generation based on course completion and assignment scores.
- Optimized data management with an **Assessment Engine** using **Angular 21 Signals** for real-time state and **Bulk JSON Upload** for question bank migration.

JNTUGV University Website **Mar 2024 - Sep 2024**
ReactJS,HTML, CSS,Bootstrap, Material-UI *jntugv.edu.in*

- Led front-end development of official university website serving 30+ colleges
- Implemented responsive design with college updates, announcements, and student resources
- Managed daily updates and deployment of live production site

AutoTrack - Vehicle Maintenance System **Oct 2024 - Dec 2024**
Java, Spring Boot, MySQL, ReactJS *https://github.com/Harsha-vivek03/AutoTrack*

- A Java full-stack, RESTful vehicle maintenance tracking system built with a client server architecture for scalability and precision.
- Streamlined operations through Vehicle registration & management, Progress monitoring & expected delivery dates and Clear service history and status visibility

Education

JNTUGV University College Of Engineering, Vizianagaram **2021 - 2025**
B.Tech in Information Technology *CGPA: 7.8/10*

Narayana Junior College, Rajahmundry **2019 - 2021**
Intermediate, MPC *GPA: 10.0/10*

Nagaraja Government High School, Rajahmundry **2015 - 2019**
High School (SSC) *GPA: 9.8/10*

Certifications

- PEP Extended Java Full Stack - Revature
- Front-End Developer(Professional) - edX (W3C)
- Data Structures - Infosys Springboard
- SQL for Data Science - edX (IBM)
- Front-End Development - IBM SkillBuild
- Java Foundation - Oracle
- Software Engineering - Infosys Springboard

Leadership

ReactJS Workshop Lead **Mar 2024**
ITYUKTA-2K24 FEST, JNTUGV

- Mentored **150+ students** from 30 colleges on ReactJS fundamentals and project deployment.
- Facilitated hands-on sessions for building and hosting personal portfolio projects.

Hour of Code Mentor **Feb 2023**
ACM Student Chapter, JNTUGV

- Led Python programming workshops for peers during Computer Science Week.
- Guided participants through logic building and implementation of interactive game projects.

Achievements

Mandal Level Chess Tournament **Jan 2022**

- Won **1st Prize** at the Mandal Level, demonstrating high-level strategic thinking.
- Felicitated by the Member of Parliament (MP) for excellence in competitive sports.
